Ecobuild Preview - 2014

Certified performance standards from Schöck on Stand N820

With the Schöck Isokorb range of thermal break elements you are guaranteed fully certified performance standards. All products are BBA approved and LABC registered, with thermal performance verified by Oxford Brookes University. In addition, the advanced technology of the Schöck XT range offers such a high level of insulation that balcony design can be incorporated into even the most demanding Passivhaus projects. Members of the Schöck team will be available on Stand N820 to discuss any aspect of these innovative solutions and offer advice on project specific information requirements. We look forward to seeing you at Ecobuild.

Notes to the editor

A leading European supplier

Schöck has grown to become Europe's leading supplier of innovative structural load bearing insulation products. The main product is the Schöck Isokorb – a thermal break for various types of cantilever constructions in new buildings and for renovation. Its headquarters are at Baden-Baden in southern Germany and there are subsidiary companies in Great Britain, France, Austria, Switzerland, Italy the Netherlands, Belgium, Poland, Hungary, Russia, Japan, Canada and the USA. Sales teams and partners operate in many other European countries and also Australia and South Korea. Schöck is committed to providing the highest level of technical back up and comprehensive customer service to the construction industry.
